28th ANNUAL RAM SALE

DERRYNOCK POLL DORSET & MATERNAL STUD's
Flock No. 1143 Founded 1965

Thursday, **8th October**, 2026 at 1.00 pm
Inspection welcome from 10.00am, (BBQ luncheon provided)

Sale offering… ***32 ewes***

8 - pens of four, 2025 drop, to be sold individually on AuctionPlus only at 12pm.

…150 Poll Dorset rams
30 select single pens
60 pens of two

…81 Maternal rams
40 - pens of two

Vendor… Ted Beattie
East Trentham, Vic 3458
Phone: (03) 54 241 495 or 0409 189 116

Simon Beattie
Phone: 0429 330 562
Email: derrynock@outlook.com

Agent… Elders – Kyneton VIC
- 5% rebate to outside agents in attendance, settling on behalf of clients.

NOTE: - **auction plus** will be available for **all** sale lots (including video)
- phone bidding available (please inquire).

DERRYNOCK IS:
MONITORED NEGATIVE Three Vacc FOR OVINE JOHNES
BRUCELLOSIS ACCREDITED FREE
LAMBPLAN PERFORMANCE RECORDED
FOOTROT FREE

PLEASE BRING CATALOGUE TO SALE

** Commercial Focus – Commercial Results **

FLOCK HISTORY

Derrynock is located at East Trentham, 20 kms South of Kyneton. The stud was founded in 1965 on Yenong and Yaralla bloodlines with the aim of breeding sound rams exhibiting the attributes of loin-length and muscling, so important for the commercial industry.

In later years selection has incorporated the use of LAMBPLAN figures. For this reason, Thurlstone 295-94 and the 'Doctor', Greyhome 42-95 (AI) were used. Both rams were structurally correct with clean faces and excellent figures. Sons of these rams, including D22, and D42 formed an integral part of the breeding program. The addition of Kurralea 5 Star gave a new element to our breeding with the ultimate combination of elite performance figures and impeccable type and structural soundness.

For the benefit of our stud and our clients we have retained our MN3 (Monitored Negative Three) Johnes status, and have vaccinated again. Therefore, to ensure we remain Johnes Free and retain our status (MN3v), we will not be selling rams at any other sales in 2026.

Derrynock continues to focus its breeding decisions on the economically important traits of prime lamb production. We are striving to breed length in the loin and maximise muscling in the hindquarter, while increasing growth rates, and maintaining leanness. We hope these will be the successful ingredients for high yielding lambs, hence, maximising productivity and profits in the modern prime lamb industry.

LAMBPLAN

- understanding genetic improvement

Top 1%	Animals ranks in the top 1% for that trait.
Top 5%	Animals ranks in the top 5% for that trait.
Top 10%	Animals ranks in the top 10% for that trait.
Top 20%	Animals ranks in the top 20% for that trait.

Birth Weight (bwt) – describes the genetic merit for weight at birth a + ASBV means the progeny will be genetically heavier at birth.

Growth (wwt) – weaning weight 100 days (pwwt) – post weaning 200 days
– describes the genetic merit for growth rate. a + ASBV means the animal is genetically faster growing

Fat (pfat) – describes the value of genes for fat depth, at constant weight a – ASBV means a genetically leaner animal

Muscle (pemd) – describes the value of genes for eye muscle depth a + ASBV means genetically more meat i.e. (potentially better yield)

Faecal Egg Count (fec) – describes the value of genes for worm egg count, a – ASBV means an animal has a higher genetic resistance to worms. **Terminal av -24 eggs**

Gestation Length (GL) – describes the value of genes for gestation length a – ASBV means the gestation of a ram's progeny will be shorter. **Terminal av -0.26 days**

Also provided are LAMBPLAN Index values: this combines the ASBV's for growth, fat and eye muscle into a single measure of genetic merit. The Index's used in this catalogue are ***TCP*:.**

- this index describes the value of the ram's genetics at 6 months of age (p=post weaning), and aims to improve Lean Meat Yield (LMY), while maintaining eating quality. **Terminal av – 143.6**

- TCP now includes lambing ease. Please refer to Terminal Index updates in the back of the catalogue.

2025 drop-DERRYNOCK SALE RAMS AVERAGE

2025 LAMBPLAN NATIONAL AVERAGE

+10.1 +15.6 -0.2 +2.3 146.0

Note:
The LAMBPLAN national terminal sire average, our ASBV's and % ranks, have been drawn from the September 1st LAMBPLAN data.

∞/*sv* = Symbol identifies rams that have been genomics tested & sire verified.
∞/*p* = Symbol identifies rams that have been genomics tested & results pending.

DESCRIPTION OF SIRES USED

Ivadene 31/22

bwt	wwt	pwwt	pfat	pemd	TCP
0.73	16.1	22.5	-0.7	2.3	158.4

An outcross sire, who has performed extremely well. His progeny have elite performance and good structure.

Aberdeen 448/22

bwt	wwt	pwwt	pfat	pemd	TCP
0.60	12.6	19.2	-0.2	3.1	162.3

A unique sire with amazing growth and a great carcase. Elite early maturity.

Derrynock 405/20

bwt	wwt	pwwt	pfat	pemd	TCP
0.03	11.1	17.0	0.6	4.2	154.0

Our best son of D 400. His sons are super clean, with lower birth weight and shorter GL and are ideally suited to the trade market. He is breeding with great consistency!!

Derrynock 982/23

bwt	wwt	pwwt	pfat	pemd	TCP
0.29	11.4	17.7	0.1	2.7	154.3

A standout performer. His sons are very correct with great carcass shape. Trait leading genes for gestation length.

Derrynock 833/23

bwt	wwt	pwwt	pfat	pemd	TCP
0.36	11.1	16.7	0.1	4.8	156.7

Another sale topper, that is performing very well. Correct and meaty.

Derrynock 145/21

bwt	wwt	pwwt	pfat	pemd	TCP
-0.11	9.4	14.8	0.1	2.6	151.5

A sire that has really performed well. His sons stood out as lambs. He is a trait leader for IMF.

***Note*: The birth type of the rams is represented in the ID as:**
(t) – twin (tr) – triplet (q) - quad

DESCRIPTION OF SIRES USED

Kentish Downs 182/23

bwt	wwt	pwwt	pfat	pemd	TCP
0.42	11.1	18.3	-0.1	5.7	170.0

A great all-round performer. One of the highest muscled rams ever used at Derrynock. Extremely early maturing.

Jewsharp 339/22

bwt	wwt	pwwt	pfat	pemd	TCP
0.28	10.9	17.6	-0.4	7.6	188.7

One of the highest ranked rams in Aus for muscling and TCP. Low birth weight and elite maturity.

Gooramma 115/23

bwt	wwt	pwwt	pfat	pemd	TCP
0.51	10.7	16.2	-0.3	3.1	161.5

A Top priced son of Valma Lyle. He has trait leading genes for Eating Quality. Has bred with tremendous success, used again for 2026 lambing.

Felix 126/19

bwt	wwt	pwwt	pfat	pemd	TCP
-0.03	10.3	16.5	0.2	5.0	161.4

A moderately framed ram, with good early maturity. Absolutely elite for lambing ease and gestation length.

S***pecial Note:***

**** Semen Share Retained****

Derrynock retains the right to collect semen, in any of the rams offered at auction. The semen is to be collected at Derrynock's expense, and at the convenience of the purchaser.

DESCRIPTION OF Maternal SIRES USED

Cashmore 2959/23

- Has bred great type, elite early growth, great fertility and very short gestation length helping with lamb survival.

Cashmore 5742/22

- This sire has bred extremely early maturing progeny with elite muscling and fat. Bred nice clean breeches!

Cloven Hills 1067/22

- Another proven performer with great all-round performance. Progeny exhibits high maternal fat and elite muscling with industry leading rearing ability!!

Cloven Hills 188/17

- A proven performer with elite muscle, fat and fertility and very low adult weight.

Derrynock 591/23

- One of the top priced rams in 2024 sale. Good all-round performer with strong type, and excellent worm resistance.

Derrynock 693/24

- This ram has bred progeny with good balanced data, extra length and very clean breeches.

Derrynock 719/24

- A great all-round performer with positive fat and elite fertility.

∞ = Symbol identifies rams that have been genomics tested
